MEMORIAL MEETING.

Tributes to Mrs. Callaway and Mrs. Bumpass.

The meeting of the Woman's Mission Board last night was given up to beautiful memorial services to Mrs. Callaway, of the North Georgia conference and to Mrs. Bumpass, of this city who was a charter member of the board and had attended every meeting up to the time of her death.

Mrs. Higginbothem touchingly read a sketch of the life of Mrs. Callaway, Mrs. E. A. Gray a paper on her work as conference secretary and Mrs. J. W. Humbert of the South Carolina conference paid a tribute to her worth as a woman. Short memorial talks were made by the various members of the board. Mrs. L. H. Robertson read a sketch of the life of Mrs. F. M. Bumpass which was followed by short tributes from other members of the board. Mrs. B. H. Merrimon sang a solo. The services were edifying throughout.

The morning and afternoon sessions of today were given up to routine business. Miss Marie Gibson of the Kansas City Bible training school submitted her report on that institution and it was adopted. Mrs. S. C. Trueheart, foreign and home secretary submitted her report on the mission appropriations for the approaching fiscal year and the report was approved.

The session of the board tonight will be occupied with the introduction of missionaries and the reception of candidates for the mission field. The board will probably finish its work and adjourn tomorrow.

Another Young Hero.

Communicated.

Speaking of heroes and monuments and promotion, Carolinians can recall with pride others than Bagley and Hobson.

We recall the heroic death of young Cummings Mebane, a brother of the late Judge Mebane, of Rockingham county. Though a lad of eighteen or nineteen the perilous duty of firing the bridge near Petersburg after the last of Gen. Lee's retreating army had crossed was assigned to him. The Federal advance was already preparing to cross in their hot pursuit of Gen. Lee. Though death was certain this young hero stood to his post, performed his duty and saved thousands of his comrades at the sacrifice of his young life.

North Carolina should erect to him a monument in the public square.

Asking a High Honor for Hobson.

Montgomery, Ala., June 6—The department at Washington having intimated that it was ready to give Lieutenant Hobson a promotion in the line of his preference, and is awaiting to learn whether he is willing to leave the bureau of construction. The Advertiser today ascertained from his friends at Greensboro that the plucky lieutenant has for some years wanted to get into active duty, and that his asking for an assignment at the beginning of the war was because of this ambition. It being also intimated from Washington that he might be made a commander, the Advertiser tomorrow will print an editorial suggesting that he be made commander of the Alabama, the superb battleship which will be finished in a few months.

Medals For the Merrimac Men.

Washington, June 6—Representative Hartman, of Montana, has introduced a joint resolution directing the Secretary of the Navy to have prepared and delivered suitable medals of honor to Lieutenant Hobson and each member of his crew, for the gallant' heroic and patriotic services rendered to the United States at Santiago harbor, on June 3, 1898. It appropriates $500 for the purpose.

Making a Traitor Loyal.

Lima, O., June 6—At Kossuth yesterday indignant citizens stripped a man, coated him with axle grease, hanged him by the heels and would not let him down until he had cheered three times for Uncle Sam and the stars and stripes. The cause of his punishment was his remark that if the United States and Germany got into war, he would go to Germany and fight against America.

CABINET TRUSTING TO CHANCE.

Regency May Be Overthrown—Nothing Official From Sampson But Spaniards Admit Defeat.

By Cable THE TELEGRAM.

London, June 7—A Madrid correspondent of the Post interviewed Senor Moret, ex-secretary of colonies, this morning. Senor Moret said the Spanish government doesn't know where it is going and that nobody in Spain foresees the outcome of the situation which is far graver than is confessed. The ship of state is drifting aimlessly and the cabinet is groping about in uncertainty. Confusion is complete, and whether or not the truth is ever known serious complications will follow.

The ministers talk but never act; they are absolutely impotent and are simply trusting to chance or luck to extricate them from the bewilderment and troubles which confront them.

A campaign in favor of peace has been begun by the press and is progressing among the populace.

The ex-secretary further says he is convinced that if a plebescite is held that everybody will vote for peace, even the soldiers. The queen has been unjustly attacked by Castelar, who is already posing for the presidency of the republic. There is doubt as to his ability to instigate a movement against the regency.

The regency was menaced recently by adversaries of the queen but the injustice of the attacks have been discovered. It is difficult to say whether the regency will be overthrown. None can say what will happen. The country is without guidance and the foreign war is in incompetent hands and fresh complications are daily feared. If the regency is overturned, and that now seems imminent, it will be an immense misfortune for Spain. The parliament is divided as well as the cabinet and the affairs of Spain are in complete disorder." The Financial News publishes an interview with Romero Giron, minister of colonies, in which he prophesies that Spain will find a way to meet the interest on the Cuban debt when it falls due and adds, "In the time of my predecessor negotiations were pending for a loan of fifty million dollars from France but the conditions were a renewal of the railway concessions in Spain and that is a measure I have always opposed in the cortez."

Referring to Manila Senor Romero said that Dewey is short of ammunition and that small pox is decimating his fleet, that the natives are an uncertain quality and are liable to take either side in the conflict. A large number have volunteered in the ranks of General Augusti since the Cavite engagement. He thinks that the Americans place little reliance in the promises of Aquinaldo.

TORPEDO BOAT TRIAL.

Philadelphia, June 7—The torpedo boat Mackenzie was given a highly satisfactory trial this morning.

GOING AFTER SPAIN.

New York, June 7—A Washington special to the World says that the adminstration will soon send the flying squadron into Spanish waters. Hurry orders have been issued to fit out the Yale and St. Louis with heavy armament. The work must be completed before Saturday.

FIGHTING YESTERDAY.

Cape Haytien, June 7—No details of the fighting at Santiago de Cuba on yesterday have been received but judging by the cablegrams passing between Blanco, Pando, Cervera and Madrid, Admiral Sampson has achieved a great victory. Considerable damage was inflicted on the Spanish ships. The biggest guns in the American fleet were used in yesterday's bombardment and the fire was kept up for four hours continuously. The Spanish reports state that the Americans were repulsed at Aguadores and mentions the hurried movement of troops from Santiago to the seacoast to repel the invaders.

DIPLOMATIC VAPORINGS.

Madrid, June 7—Duke Almodovar de Rio, minister of foreign affairs has despatched a note to all Spanish ambassadors accompanied by a memorandum declaring that America violated international law by capturing Spanish vessels before the declaration of war was formally made, by bombarding ports without due notice and by using the Spanish flag.

NO ADVICES MADE PUBLIC.

Washington, June 7—While nothing official has been announced by the war and navy departments it is tolerably certain that McKinley has received advices from Admiral Sampson concerning the bombardment and landing of troops at Santiago on yesterday. It is known here that Sampson had planned to begin the reduction of the batteries defending the harbor entrance at six o'clock on yesterday morning. It was also decided to land forces in the neighborhood of Santiago and seize a strong position. The work is believed to have been entrusted to 900 marines who joined the fleet on yesterday on board the cruiser Resolute. The marines are known to have beed landed yesterday.

Get Puerto Rico.

The point Secretary Day is said to have made that we must capture Puerto Rico before Spain sues for peace in order to make sure of our indemnity is very well taken. It is important, however, that it should be supplemented by the declaration that the island is to be held, not as the security for the indemnity, but as being itself the indemnity, in whole or in part.

If we hold Puerto Rico as security for the payment of the costs of the war, Spain will have an equity of redemption. Spain may raise the money and redeem the island. This is not to be regarded as admissible. Whether or not we want Puerto Rico for ourselves, we cannot allow Spain to keep it. She must quit this hemisphere. It would be a cause of constant irritation and danger if she should continue to enjoy the right to send ships of war to possessions of her own in waters near Cuba and our own coasts. The only prudent, the only safe course, is to expel her from the new world altogether.

The preparations to invade and capture Puerto Rico are wise and timely. Make the island ours and the treaty of peace will confirm our title. —New York Times.

BRILLIANT AMERICAN VICTORY

Forts at Santiago Pounded to Powder.

FIERCE LAND BATTLE FOUGHT.

Spaniards Routed Horse, Foot and Dragoons—Two Cruisers Sunk. The Fighting at Manila.

By Wire to THE TELEGRAM.

New York, June 7—The Journal's special Haytien bulletin states that Sampson has achieved a glorious victory at Santiago de Cuba. Ten American warships approached the fortifications at 7:45 o'clock in the morning and opened a fierce fire which was maintained until eleven o'clock. The bombardment was terrific, 1500 shots being fired in all. The fortifications of Santiago were completely demolished and many Spaniards killed. The Spanish cruiser Reina Mercedes was riddled by the fire of the American ships and is reported to have sunk. The Americans landed a detachment at Daiguire and a sharp battle with the Spaniards ensued. The Spanish infantry and cavalry were routed. Several Spanish generals were killed. No American losses are reported.

The World has received a special from Cape Haytien stating that it is reported there that the Spanish cruiser Infanta Maria Teresa was sunk by the fire from the American squadron.

The assignment of volunteers in the department in the east was announced today at Governor's Island. The 22nd New York goes to Willett's Point and to forts Slocum and Schuyler. The first New York goes to forts Hamilton and Wadsworth. The 47th New York to Fort Adam, Rhode Island and to the Dutch Islands. The First Connecticut goes to Buck Port Maine. The 14th Pennsylvania will be sent to fort Deleware and Fort Mott, New Jersey. The 18th Pennsylvania goes to Deleware City and Alliance, Ohio, to guard the gun factories at those points. The 17th Pennsylvania goes to Sheridan Point, Virginia, and fort Washington Maryland.

FIERCE FIGHTING IN PHILIPPINES.

Hong Kong, June 7—The latest advices from Manila say: Fierce fighting between the Spaniards and Insurgents continued from May 29th to June 2nd. Although the Spaniards were worsted at every point they remain confident of ultimate victory over the insurgents and Americans.

There was a fierce fight near Manila on May 30th in which the Spaniards lost a hundred and fifty men, but the insurgents finally retiring the Spaniards claimed a victory.

The Spaniards are fortifying every possible point and are being closely watched by Commodore Dewey. There is a steady advance of the insurgents along the coast which is being supported by the American gunboat Petrel.

The insurgents have made the Spaniards reconcentrados by gradually penning them up at Manila. The Spanish outposts were reinforced by four thousand troops but on May 31st they were forced back along the whole line in an engagement in which the fighting was desperate. It is estimated that over a thousand Spanish soldiers were killed.

M'KINLEY'S EXASPERATION SHARED.

Washington, June 7—The condition of the troops at Tampa was reported today to the cabinet which shares in President McKinley's exasperation at the delay. The president has signed the bill which provides for removing all political disabilities resulting from the civil war of the sixties.

FRED GRANT ILL.

Chickamauga, June 7—Gen. Fred Grant is confined to his tent with sickness due to over-exertion in the sham battle of yesterday.

SUCCESSFUL LANDING.

Key West, June 7—The Fanita which arrived here this morning, reports the successful landing in Cuba of the Rodriguez expedition which sailed from Mobile several weeks ago.

A Congressman Right.

Congressman Fitzgerald is actively concerning himself in the welfare of the Massachusetts soldiers at Camp Alger. Yesterday morning he called on the Secretary of War and exhibited to him a nine-inch slab of fat pork which had no lean meat on it. In indignant tones "the only Democratic Congressman from New England" asked; "Do you call this bacon?" It was what the Ninth Massachusetts regiment was getting for bacon. We fancy there are votes for Fitzgerald in that pork episode.

FIENDISH WORK.

A Cowardly Villain Shoots the Excursion Train.

As the excursion train from Mt. Airy to this city yesterday was near Pilot Mountain on the return trip last night, a fiend who ought to have been in the penitentiary long ago and for whom hanging would be too good, fired a load of shot at the train which crashed through a window scattering fragments of broken glass all over the car. Fortunately no one was hit, but it was due to the kind and overruling Providence rather than the good intentions of the demon who pulled the trigger. A gentleman who had been occupying the seat next to the window through which the load of shot entered had vacated just in time to save himself.

Such occurrences as this are becoming entirely too frequent. An earnest, determined effort should be made to capture and punish such wanton criminals. It is not vandalism. Such characters should be placed in the same category with the man who in the darkness of the night, pulls the spikes, removes a rail and hurls a train load of human beings to destruction, because he doesn't know who may be the victim.

They are All Busy.

While the soldiers and sailors are parching under a burning tropical sun, and the war is costing over a million dollars a day, we are gratified to state that Greensboro's manufacturing industries are all busy, running on full time, and new contracts are almost daily let.

To what heights will Spanish veracity soar next?

Captain Hobson swam ashore to find himself famous.

The seat of imaginative activity has been permanently established at Mole St. Nicholas.

Wonder if Secretary Long cabled Captain Clark to be sure and hit that torpedo boat?

For the sake of the public treasury let us hope that there are no more yachts for sale in the Hanna family.

Think of the great economy in cold chills along the New England coast that was achieved by the sinking of the Merrimac!

It was almost too much to expect a contemporaneous silence of two weeks duration on the part of Eugene V. Debs and Emperor William.

Captain Hobson's fame is as naught compared with his who shall steam into the mouth of General Blanco and scuttle his ship across the channel.

When the siege batteries take the defences of Santiago in the rear and the fleet in front there is going to be a magnificent opportunity for a display of Spanish valor.

Spanish cruisers have begun their old tricks of touching at West Indian ports and the arrival of a dozen or so may be confidently expected each day until further notice.

The attention of the Honorable Marshal L. Mott, of Wilkesboro, is respectfully called to the fact that Major Hiram L. Grant, of Goldsboro, has again bobbed up serenely.

People who are pleased to see a fearless disregard of the truth are requested to keep an eye on our esteemed contemporary, the Caucasian, from now until the Ides of November.

If the administration has lieutenant colonelcies in the regular army to throw away it might find some respectable captains willing to accept them without resorting to carpet bag rubbish heaps.

The Honorable Joseph Bailey has been good enough to put his youthfulness in evidence several times but never more strikingly than in his onslaught on Joe Wheeler the other day. It is greatly to be feared that Mr. Bailey belongs to the irredeemably good.

It is said that Castilian pride has risen several degrees since the sinking of the Merrimac and that joy in Havana has almost kept pace with the price of mule steaks. The returns are not all in and what pressure was required to restrain the "joyful emotions" of the Spanish cabinet is not reported. Who says that the mind is not the true source of happiness?

The slippery nature of a lie was never so beautifully demonstrated as in the series of brilliant dodges it has given the press censor.

If all the lies that are out just now go "home to roost" there is going to be a mighty heap of pushing and shaving for standing room in certain quarters.

It is pleasant to reflect that whether or not we have Spanish prisoners to exchange for Hobson and his crew now we soon shall have them in plenty. It would not be a bad idea to swap 'em a regiment or two for him.

If the commanders of the Spanish torpedo boats sent out of Santiago harbor to attack the American fleet had been possessed of Hobson's pluck we should have one or two warships less afloat today. That is certain.

There is some grounds for entertaining the opinion that Spaniards have had sufficient experience with that arm of the service under Admiral Dewey and will not go some eight or ten thousand miles to test it again.

The death of Captain Gridley of the Olympia will be sincerely mourned by the American people. They would have liked that an opportunity should have been given them to show how great was their pride in his brilliant exploit at Manila. As it is all they can offer him is a grave under the old flag and an immortal page in the history of his country.

To those who are inclined to believe that Cuba can not govern herself it may be useful to point out the case of Hayti. They usually have one or two revolutions a year but they don't kill anybody but themselves nor do we have to patrol the coast to arrest filibusters. Cuba would doubtless have a revolution each presidential election but the insurgents might be induced to make the presidential term six or eight years and when a fight came the parties to it could be made to let Americans alone. Then too in a few years Americans would rule the island as they do Hawaii. In any case we should be saved the thankless task of policing the island. But the chances are that we are in for a "colonial policy," tooth and nail.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home as in it we have a certain and sure cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at C. E. Holton's drug rtore.

Spain's Appeal to Europe.

Madrid, June 6—The Cabinet Council terminated at a late hour this evening. It was declared that the situations of the American squadron and of the insurgents at Manila were "unsatisfactory owing to disease;" that the native troops were favorable to Spain.

Duke Almodovar de Rio, the foreign Minister, read a note to be sent to the Powers, complaining of America's "infractions of international law."

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discouery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

LEANING TOWER OF PISA.

One Cannot Help Being Nervous In Looking From Its Top.

In St. Nicholas, John Ward writes of "The Bell Towers of Italy." Mr. Ward says of the most famous of them all:

Pisa seems like a sleeping city, as she lies so quietly and silently along the two borders of the river Arno. She fell asleep several hundred years ago, after she had struggled valiantly for her independence and had won renown during the fierce contests between the Guelphs (partisans of the pope) and the Ghibellines (partisans of the emperor). Though Pisa has long since forgotten the days of her greatness, the world cannot forget them when it looks upon that wondrously beautiful group of four marble white buildings standing apart in the sacred corner—the cathedral, the baptistery, the campo santo (or burial ground), and, what interests us most of all, the remarkable campanile, so well known as the "leaning tower." This famous tower was built in 1174. Its construction is peculiar. There is in the center a hollow brick tube or cylinder; around this plain round tower the architects built eight stories of open galleries, with beautiful, slender columns of white marble supporting semicircular arches. The general effect is one of great delicacy and lightness, a fairylike tower of wonderful grace. The summit is 179 feet from the ground. As you all know, the tower leans 13 feet out of the perpendicular and looks as if it would surely fall over at any moment, but, as the center of gravity is still within its base, it is as safe as if it were erect. The foundations were probably imperfectly built at the start, for the tower began to lean before it was half finished, and we can see where at one point the builders tried to bring it back as much as possible to the vertical line by making the columns on the low side higher than the others. The walls, too, are strengthened with iron bars. Fancy the consternation of the architects when they saw their beautiful tower leaning over and its foundations sinking in the ground! It requires very steady nerves to carry us to the top, and we find ourselves clinging to the wall when we are on the leaning side.

This is what Charles Dickens says about the tower in his "Pictures From Italy:" "In the course of the ascent to the top the inclination is not very apparent, but at the summit it becomes so and gives one the sensation of being in a ship that has heeled over through the action of an ebb tide. The effect upon the low side, so to speak, looking over from the gallery and seeing the shaft recede to its base, is very startling, and I saw a nervous traveler hold on to the tower involuntarily after glancing down, as if he had some idea of propping it up."

When we reach the summit, we must not forget that this was where the great astronomer Galileo watched the stars, experimented on the fall of bodies and studied the law of gravitation. Here, too, in the upper story, hang the six bells, the largest of which weighs more than 12,000 pounds. The bell founders of Pisa had a wide reputation for casting bells of beautiful tone, sonorous and harmonious. They lavished on them all their art and their talent.

The Pasquareccia (the Paschal bell), the most famous of the Pisan bells, the one which was tolled when criminals were taken to execution, is ornamented with a figure of the Virgin and the devices of Pisa and has a rich, full tone.

The Laziest People on Earth.

The laziest and dirtiest people in the world have recently been discovered in the Caucasus. They live in an inaccessible mountain range between the Black sea and the Caspian sea, and as they were 2,500 years ago so they are today. Seen from without, there is a certain picturesqueness about a Svanctian village, although it merely consists of miserable stone hovels without any attempt at form or adornment. Within the houses are inconceivably filthy. They are filled with rags, vermin and dirt of every description. They possess no fireplace or chimney. All the cooking, in fact, is done over a hole scooped out in the middle of the floor. In these houses men and women and children are huddled together. During the long winter months they are shut in for days at a time, the cattle often sharing their quarters. Every aperture has to be closed on account of the cold. This long imprisonment is perhaps the cause of the degradation of the people. Horrible diseases result from it, which are aggravated by an abnormal consumption of arrack, the strong distilled drink of the Asiatics. Besides this, it is an invariable rule to make four days a week holidays, with saints' days as extras. Since they have adopted the holidays of every other country with which they have been in contact, it is not surprising that the men find little time for work. Farming, bee culture and cattle breeding are the only industries of these people, while throughout their territory there is not a single manufactured article.—New York Ledger.

Shelled.

When the conqueror came out upon the hills that overlooked the doomed city, his stern face lighted.

"Nuts for us!" he exclaimed.

"Is it your excellency's wish," asked an officer of the artillery, galloping up just then, "that the town be shelled?"

A raw recruit laughed loudly in the ranks, but the trained soldiery merely groaned.—Detroit Journal.

ATTACK FORTS THIS MORNING.

Sampson Intends to Get at Cervera and Fight Him in the Harbor.

On board the New York, via Sun's dispatch boat Kanapaha, off Santiago, June 5, via Kingston, Jamaica, June 6—Admiral Sampson let it be known to the fleet today that it was his intention to attack Santiago at 7 o'clock Tuesday morning.

The news caused great rejoicing among the officers and men. The object will be to destroy the enemy's batteries and other fortifications at the harbor's mouth, after which Sampson will blow up the Merrimac, enter the bay and engage Cervera's squadron.

Admiral Sampson gave out no explanation of this change of plan, though the fast dispatch boats Harvard and St. Louis are known to be in close communication with Washington. It is thought he has received orders to go ahead and deal with the Spanish squadron without awaiting the arrival of the land forces said to be already enroute to Santiago.

Entitled to Sympathy.

Three men were standing in front of the postoffice and to them came a fourth. One of the three did not know the newcomer and stepped aside slightly, but he overheard the conversation.

"Well, John, how's things?"

"Poor, very poor. I havn't had a thing to do for three weeks."

"Is that so?"

"Sure. If this streak of bad luck keeps up I'll have to go out of business."

Instead of commiserating, the other two men grinned, and one said in an unfeeling tone:

"I don't care if you never have work."

John shook his head sadly and passed on.

The listener was shocked. He had never heard anything so bluntly cruel. In a few minutes he expressed his feelings somewhat warmly.

"He seems like an honest fellow and deserves encouragement," he concluded.

Both men laughed outright.

"Well," said one at length. "If you want to give him a job, you're welcome, he's an undertaker.—Chicago Times-Herald.

Seize the Canaries.

Washington, June 6—Military and naval authorities are discussing informally the advisability of sending an expedition to seize the Canary Islands. The plan proposed it is understood, is to be contingent on the failure of Spain to sue for peace after the fall of Santiago and the successful invasion of Porto Rico by our forces.

While no definite arrangements looking to the perfection of the movement has been made, there is quite an undercurrent of influence in favor of it, particularly among those who predict that peace will come very soon. It is argued that Spain would be brought to terms if more of her possessions were threatened and predictions are made that to save the Canaries, the Madrid government will enter into negotiations for ending the war after Santiago is taken.

Spanish Officer at Norfolk.

Newport News, Va., June 6—The Spanish officer taken to Norfolk Friday on the cruiser Cincinnati was transferred to Fort Monroe this afternoon. While is is rumored that the Spaniard is an officer of high rank, his identity is unknown. He is confined in a comfortable cell and will be well treated as long as he is a captive at the garrison.

"You speak," said a fond mother, "about people having strength of mind, but when it comes to strength of don't mind my son William surpasses anybody I ever knew.—Tid Bits.

Dewey's Insurgents.

Washington, June 6—The Navy department at 2 o'clock posted the following: "Admiral Dewey reports that the insurgents have been actively engaged in the province of Cavite during the past week. They have won several victories, taken prisoners about 1,800 men, and 50 officers, of the Spanish troops, not native. The arsenal of Cavite has been prepared for occupation by the United States troops upon the arrival of the transports.

"Admiral Sampson is engaged in arranging with Admiral Cervera for the exchange of Naval Constructor Hobson and the men who are now prisoners at Santiago, for some of the officers and men held prisoners by the United States at Fort McPherson.

The Horrors of Nervousness.

Those who are going through the indescribable terrors of this dreadful disease, require no description of the agonies they constantly suffer. But why suffer? Good blood gives good nerves; and

Johnston's Sarsaparilla

gives good blood. It is a nerve strengthener and restorer, the efficacy of which cannot be over-estimated; when it is learned that its absolute freedom from poisonous drugs or opiates, makes it safe for use in the hands of sick or inexperienced persons, there is an increased appreciation of it. JOHNSTON'S SARSAPARILLA is a specific for impoverished or impotent nerves; it feeds the nervous system to high health, provides for physical and brain endurance, cheerfulness, happiness and energy.

Our thirty-six page illustrated book contains some interesting pages on Nerve Exhaustion. It is free for the asking. Quart bottle, $1.00.

BRIEF LOCAL MATTERS.

M. L. Shields went to Winston this morning.

Fred Tesh, of Reidsville, was in the city last night.

Spencer Blackburn, of Winston, was at the McAdoo this morning.

Mr. Frank Hodgin, of Roanoke, Va., is visiting relatives in the city.

President L. L. Hobbs, of Guilford College was in the city last night.

See what Hudson says today in his space about seasonable vegetables.

Dr. and Mrs. R. H. Whitehead, of Chapel Hill were in the city last night.

Prof. J. A. W. Thompson, of Sanford, was here today and went home at noon.

We are pleased to learn that Capt. Will Dodson's little boy continues to improve.

Mr. and Mrs. C. G. Wright returned last night from a few weeks stay at Beaufort.

The News and Observer's hustling traveling man, Mr. Rogers, is in the city today.

Court was again adjourned until tomorrow on account of the illness of Judge Robinson.

Dr. John K. and Miss Annie C. William, of Asheville, were at the Benbow last night.

Wharton & McAlister have an insurance ad today which will interest the people of Greensboro.

Rev. Dr. W. L. Grissom and Rev. G. T. Rowe went to Durham today to attend Trinity College commencement.

We call your attention to the sale of land under mortgage deed advertised in this paper by Wm. H. Matthews.

This city owns and maintains some first-class mosquito incubators. They should be abolished at the next meeting of the city aldermen.

W. H. Britton and W. J. Johnson, of the well-known lumber firm of Britton & Johnson, of Spout Springs, were in the city yesterday.

A. G. Hamilton, a recent employee of the Southern railway at this place, has been transferred to Mebane, and has charge of a section there.

A great convenience is the mourning hat band advertised by M. C. & S. today. They are made to fit any size hat and can be adjusted without trouble.

Ice cream soda, than which there is nothing nicer, is handled and served at Stamey & Grissom's in a manner that cannot fail to please the most fastidious.

Sidney Alderman, the little son of Mr. S. L. Alderman, who was so painfully burned about the face and neck some time ago by upsetting a lamp, is fast getting well.

The Fishblate-Katz-Rankin company, opposite McAdoo hotel, are offering special sales in men's, boys' and youths' clothing this week. Read their ad and go and see them.

A policeman remarked this morning that the excursion party yesterday from Mt. Airy was the most orderly which has ever visited this city. Three cheers for Mt. Airy!

The loafers continue to sit on the stone fence ot the post-office and besmirch the sidewalk with tobacco juice. In all seriousness and earnestness, and in the interest of common decency cannot this nuisance be abated?

We hope to hear a favorable report by the committee appointed to investigate the matter of selecting a site and establishing a city park, at the meeting of the city aldermen next Friday night.

That mud hole down on South Elm by the C. F. & Y. V. track is a mud hole yet. It is the city's business, however and we do not desire to leave the impression that the railroad authorities are in any way responsible for it.

Farmers who came in to attend court—and there is no court—tell us that reapers and binders have begun the work of harvesting the golden grain. In some sections wheat is very fine and in others the crop will be short owing to the destructive work of the Hessian fly.

Cemented the Re-Union.

The Raleigh Morning Post has been happily inspired to undertake the raising of a fund, by popular subscription, for the erection of a monument to commemorate the heroic death of Ensign Worth Bagley, of the Winslow, who fell in the performance of his duty at Cardenas on May 11. That such a monument should be reared over his grave is beyond question. Not only was Ensign Bagley the first American naval officer to fall in the war with Spain, but he sealed with his blood a true re-union of the northern and southern states.—Philadelphia Record.

Where the Recruits Go.

As has been stated, 783 of the quota of volunteers from North Carolina under the second call will be used in filling up the regiments, the First and Second, to a proper footing. The other 751 will be used in filling the negro regiment, which will take up that number in the seven companies allowed. The Adjutant General says he believes the Governor wanted the 171 put in white batallions, but it is said by republicans here that the Governor really wanted the negroes to have a regiment and that J. C. L. Harris, who was sent to Washington and came back yesterday, took the same view.—Col. Old's correspondence.

K. of P. Officers Elected.

Sale of Valuable Lots

By virtue of an order made by the Superior Court of Guilford county, in the case of Jesse F. Stephens, admr. of Hamon Mendenhall, deceased, vs. Junius A. Mendenhall et al, the undersigned commissioner will sell at public auction on the premises, on

Thursday, July 7th, 1898,

at 10 o'clock a. m., the following lands, situate in Morehead Township, Guilford County, N. C. described as follows: The home place of Hamon Mendenhall, deceased, containing about ten acres and lying on the South side of Spring Garden street, beyond the city limits, about a quarter of a mile west of the Normal College, adjoining the lands of R. P. Gorrell and others and known as the "Hamon Mendenhall place," said land to be cut up and sold in twenty lots of about one-half acre each. Terms of sale, one-half cash and one-half six months after sale, possession and title to be given upon final payment.

Said sale to made, however, subject to the confirmation of the Court. This June 6th, 1898.
